

## SATT – Training Packages

Sapientia Aviation Theory Tutoring Center (SATT) is the Sapientia's specialized branch aiming to provide high-quality preparation for Aviation Pilot licensing theoretical exams. We're the team of professionals who understand what student pilots need and fully fill those requirements in an appropriate span of time with high performance results.

We **Deal** in ATPL Theoretical preparation for Instrumentation, General Navigation, Meteorology, Human Performance and Limitations, Radio Navigation, Airframe and Systems, Electrics, Power Plant and Emergency Equipment, Air Law, Flight Planning and Flight Monitoring, Communications (This subject has two separate exams: VFR Communications and IFR Communications, but we combine them on the tutorial), Operational Procedures, Principles of Flight, Performance, Mass and Balance. Mathematics, Physics, English basis are also tutorial units available. A "Commercial Pilot's inside view" session (lectured by a Professional Airline Commander), a Cessna 152 general briefing and a Preparation for Airline Company's selection processes group of sessions (interview, psychotechnics, selection panel, group dynamics) are also available per student's requirement.

**SATT** at a glance: In addition to one-on-one tutoring, SATT provides the opportunity for students to become involved in collaborative learning groups.

### YOUR Advantages

- Experienced and qualified teachers.
- Certified training provider (DGERT, IEFP, Cambridge International).
- Students grouped according to their abilities.
- Review of all major parts of the syllabus.
- Practice and advice on exam questions and revision techniques.
- Intensive, focused, uninterrupted time on each topic.
- Increased confidence.

SATT training packages include 8 (minimum), 40 (5% discount) or 80 (10% discount) session unit cards. Normally, the first session consists on the evaluation and definition of the study plan. Lesson packages correspond to mentoring time. For the **Mentoring Program "Pilot Mentoring By Pilots"** (\*), including general preparation and counseling, study methods, mathematics, physics and english for aviation, ANAC exam preparation (practical approach) and navigation preparation (practical approach), each session corresponds to 2h. **For the Tutoring Program, considering ANAC approved Tutors (theoretical approach), each session corresponds to 1h.**

Thus, for the mentoring program SATT offers the following packages and conditions:

- 8 sessions/credits = 8 x 2hours sessions (\*): 8 units x 50 € + Insurance and Registration (40 €) = 440 € (total of 16h mentoring\*)
- 40 sessions/credits = 40 x 2hour sessions (\*) with 5% discount and insurance and registration fee offer = 40 units x 47.5 € = 1,900 € (total of 80h mentoring\*)
- 80 sessions/credits = 80 x 2hour sessions with 10% discount and insurance and registration fee offer = 80 units x 45 € = 3,600 € (total of 160h mentoring\*)

\*for the Mentoring Program “Pilot Mentoring By Pilots” each credit corresponds to a 2h session, for the Tutoring Program, considering ANAC approved Tutors (theoretical approach), each session corresponds to 1h. For each Simulator class, 4 credits will be considered for each 2 hours class, with one student attending. For a class of two students at the same Simulator slot, 3 credits will be considered for each student.

You will be assigned as a Pilot Tutor who will accompany and advise you throughout the learning process. You can also count on the management of SATT to accompany and help in the realization of the Study Plan and preparation.

SATT students can also use their credits on our hi-tech Simulator environment, with this amazing tool and a highly professional team of Commercial Commanders and Flight Instructors, we can teach all about:

- Normal and abnormal procedures
- Ground operations and in-flight training
- Kinesthetic memory learning
- Pilot CRM
- Instrument Flying
- And a lot more!

With the best training and tutorial techniques, we will be able to improve your training dispatch, offering advanced capabilities, and increasing operational efficiency. If you are an Aviation enthusiast, Student Pilot or a Pilot with assessment or training needs, we are here to help!
